
CAPSTONE PROJECT

AI RESUME & PORTFOLIO BUILDER

Presented By:

- 1. Student Name - Mohammed Abdul Rahman**
- 2. College Name – JNTUH University College of Engineering Palair**
- 3. Department – Computer Science Engineering**

OUTLINE

- **Problem Statement** (Should not include solution)
- **Proposed System/Solution**
- **System Development Approach** (Technology Used)
- **Algorithm & Deployment**
- **Result**
- **Conclusion**
- **Future Scope**
- **References**

PROBLEM STATEMENT

Many students struggle to present their skills and projects in an attractive, professional format. Generic resume templates don't highlight individual strengths. A generative AI solution is needed that can automatically generate tailored resumes, cover letters, and portfolios based on student data, improving job and internship opportunities.

.

Common issues include:

- Lack of resume-building knowledge
- Poor formatting and structure
- Difficulty showcasing skills and projects
- Low ATS compatibility

These challenges reduce opportunities for internships and placements.

PROPOSED SOLUTION

Develop an AI Resume & Portfolio Builder web application using Streamlit and Python that helps users:

- Create professional resumes instantly
- Organize educational and project details
- Analyze skills and suggest suitable career roles
- Estimate ATS scores
- Download generated resumes

SYSTEM APPROACH

Frontend

- Streamlit Interface
- User Input Forms

Backend

- Python Logic
- Resume Generation Engine
- ATS Evaluation Module

Development Tools

- VS Code
- GitHub
- Streamlit Cloud

ALGORITHM & DEPLOYMENT

Algorithm

- Accept user details
- Process education, skills, projects, and certifications
- Generate formatted resume
- Analyze skills
- Display ATS score
- Recommend career roles
- Enable download option

Deployment

- GitHub Repository - <https://github.com/mohdrahman-ai/AI-Resume-and-Portfolio-Builder>
- Streamlit Cloud - <https://ai-resume-and-portfolio-builder-09.streamlit.app/>

RESULT

Streamlit AI Resume and Portfolio Builder app user interface -

The screenshot displays the user interface of the 'AI Resume & Portfolio Builder' application. The interface is set against a dark background with white text. At the top, the title 'AI Resume & Portfolio Builder' is prominently displayed. Below the title, there are five input fields, each preceded by a label: 'Name', 'Education', 'Skills', 'Projects', and 'Certifications'. Each input field is a dark gray rectangle. In the bottom right corner of the interface, there is a link that reads '< Manage app'.

User Interface-

A dark-themed user interface for a resume generation application. The interface features a vertical list of input sections: a top text field, followed by 'Education', 'Skills', 'Projects', and 'Certifications', each with a corresponding text area. At the bottom left is a 'Generate Resume' button, and at the bottom right is a '< Manage app' link. A vertical scrollbar is visible on the right side of the form.

Recommended Role: Data Analyst / Python Developer

ATS Score: 60/100 - Add more skills

CONCLUSION

- The AI Resume & Portfolio Builder simplifies resume creation for students and job seekers.

The project successfully:

- Generates professional resumes
- Estimates ATS scores
- Recommends career paths
- Improves resume-building efficiency
- This project demonstrates the practical application of Python and Streamlit in solving real-world career development problems.

FUTURE SCOPE

- Integration with AI models to generate more professional and personalized resumes.
- Support for exporting resumes in multiple formats such as PDF, DOCX, and HTML.
- Advanced ATS (Applicant Tracking System) score analysis with detailed suggestions.
- Automatic skill recommendations based on job descriptions.
- Portfolio website generation alongside resume creation.
- Integration with LinkedIn and GitHub for automatic profile data import.
- Resume templates for different industries and career levels.
- Multilingual resume generation to support global job applications.
- Real-time job role recommendations based on user skills and qualifications.
- Cloud database integration to save and manage multiple resumes securely.
